PROFILE SUMMARY (~2 Years)

Data/Business Analyst with ~2 years of experience in requirements gathering, financial and operational data analysis, and dashboard development using SQL, Power BI, and Advanced Excel. Experienced in stakeholder management, data validation, and translating business requirements into accurate, decision-ready reporting across BFSI, D2C, and manufacturing sectors.

PROFESSIONAL EXPERIENCE

Yes Securities

Sep 2025 – Present

Investment Data Analyst — Gurgaon, India

- Gathered reporting requirements from investment advisors and portfolio managers and performed fundamental and comparative financial analysis (**P/E, ROE, ROCE, EPS, Debt-to-Equity**) to support investment research and portfolio strategy.
- Processed and analyzed financial datasets for **500+ listed companies** using **Advanced Excel (Power Query, Pivot Tables, XLOOKUP)** and **SQL**, achieving **98%+ data accuracy** through validation and reconciliation.
- Designed automated Excel reporting models and Power BI dashboards to track portfolio performance, sector-wise trends, and benchmark returns, **reducing manual reporting effort by 30%**.
- Developed and optimized SQL queries to extract, transform, and analyze investment and portfolio data from relational databases, **reducing report turnaround time by 25%** while maintaining data integrity.

Dreamtech Electronics India Pvt. Ltd.

May 2024 – Jul 2024

Financial Analyst Intern — Greater Noida, India

- Gathered budgeting and variance-reporting requirements from finance stakeholders and performed budget vs. actual, variance, and profitability analysis using Advanced Excel and SQL, **improving reporting accuracy by 8% and reducing manual effort by 20%**.
- Built Power BI dashboards and automated financial reports to track revenue, OPEX, cash flow, and business KPIs, **reducing report turnaround time by 25%**.
- Analyzed **Income Statements, Balance Sheets, and Cash Flow Statements** to support forecasting, budgeting, and financial planning for management decision-making.

Magicpin

Nov 2022 – May 2023

Business Operations Analyst — Gurgaon, India

- Analyzed **120K+ operational and transaction records** using **Advanced Excel (Power Query, Pivot Tables, XLOOKUP)** to identify process inefficiencies, reducing operational turnaround time (TAT) by **18%** and improving data accuracy by **25%**.
- Designed and automated MIS reports and Power BI dashboards to track **15+ KPIs**, including order fulfilment, SLA adherence, merchant onboarding, and team productivity, **reducing manual reporting effort by 40%**.
- Conducted root cause analysis (RCA) with cross-functional teams to identify process gaps, **reducing ticket escalations by 20% and increasing SLA compliance by 15%**.
- Built scalable reporting and data validation frameworks and documented SOPs, **reducing report generation time by 65% and achieving 99%+ reporting accuracy**.

SKILLS

Technical Skills - SQL, Advanced Excel (Power Query, Pivot Tables, XLOOKUP), Power BI, Tableau, Python (Pandas, NumPy), Data Analysis, Data Visualization, Dashboard Development, MIS Reporting, Data Validation

Business & Analytical Skills - Requirements Gathering & Documentation, Business Analysis, Stakeholder Management, Financial Analysis, Market Research, KPI Development, Process Improvement, Forecasting, Cross-Functional Coordination

PROJECTS

Macroeconomic Indicators & Stock Market Returns

R, Econometrics (ADF, VAR, VECM)

- Analysed **27 years** of Nifty 50 and BSE Sensex data (1996–2023) to quantify macroeconomic drivers of equity returns using time-series econometrics.
- Identified **GDP and FDI** as statistically significant long-run factors and inflation as a short-term drag, applying **ADF tests, VAR, and VECM in R**.
